

THE EDISON ELECTRIC LIGHT CO. OF PHILADELPHIA, PA.

909 Walnut Street.

NOTE EXTRACTS FROM WIRING RULES OF THIS CO. ON OTHER SIDE.

Telephone, No. 820.

P. O. Box 818.

PHILADELPHIA, Feby. 10, 1894.

Subject:

Mr. James E. MacLane,
Custodian U. S. Mint,
Juniper & Chestnut St., Philada.

Dear sir:

Our inspector reports as follows:

"On testing the lines at the U. S. Mint I found all the three wires grounded."

If you desire us to locate this trouble we will be pleased to assist you but it will necessitate cutting the current off the building for perhaps three to five hours while our inspectors are making the tests, and we leave it to you to indicate a suitable time to do it.

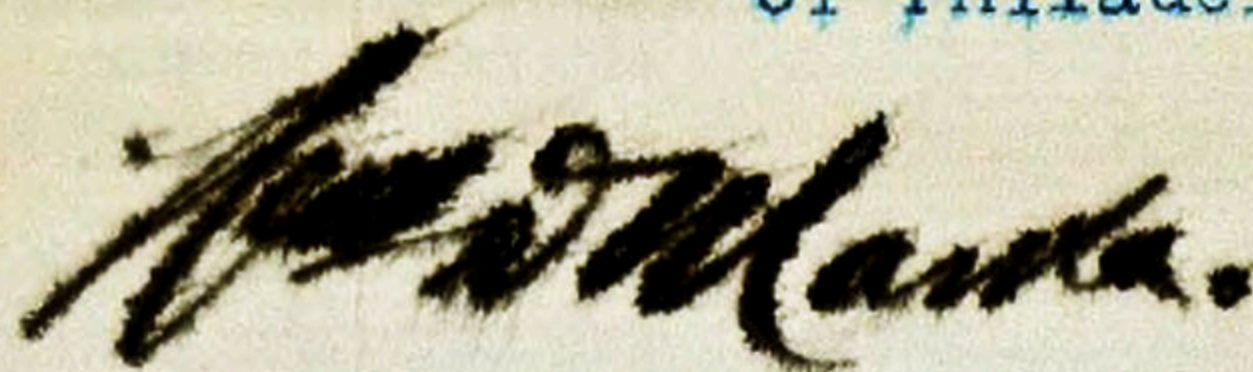

These grounded wires account for the increased amount of current consumed as it has been flowing through the meter to earth, when lamps were not in use.

A thorough examination of the meter records shows the bill for January to be correct as rendered.

Yours very truly,

THE EDISON ELECTRIC LIGHT CO.
of Philadelphia.
